Interested in getting more involved at KBI?

KBI is built by people who care. Our committees are where ideas become action, relationships grow, and members help shape the future of our community.

You do not need previous committee experience or special expertise to serve on every committee. Share your interests, skills, ideas, perspective and life experience. Maybe you simply enjoy bringing people together, solving problems, organizing things, asking good questions or making ideas happen. **Not sure where you fit? That's okay.** Tell us what you care about, what you enjoy doing, or what you would love to contribute to KBI. **There is a place for you!**

Please note, expressing interest does not guarantee a committee position. Committees have limited spaces and members are selected by Committee Chairs based on the needs and composition of each committee. If there is not an opening right away, we will keep your interests and skills in mind as opportunities arise.
